

FPT INDUSTRIAL AND TATA DAEWOO APPROACH 20 YEARS OF PARTNERSHIP

Turin, Italy, September 30th, 2024

FPT Industrial and **Tata Daewoo Commercial Vehicles** just **celebrated 20 years of partnership**. The combination of **class-leading trucks and technologically advanced engines** is proving highly successful. FPT Industrial today supplies Tata Daewoo's full commercial vehicle line-up with a range of **Euro VI compliant engines** extending **from 4 to 13 liters**.

As a global engine manufacturer, FPT Industrial is proud to support a major commercial vehicle builder like Tata Daewoo to achieve competitive gain and grow its market share. Over the past two decades, FPT Industrial has remained committed to providing this high-profile customer with **optimal engine solutions**. Since 2015, this pledge has involved supplying Tata Daewoo's full line up of light, medium and heavy commercial vehicles with **Euro VI compliant engines**.

Since the start of the collaboration, approximately **90,000 engines** have been supplied to the partner.

PRESS RELEASE

A key feature of the current engines is FPT Industrial's proprietary, regeneration-free **High Efficiency SCR (HI-eSCR) system**. HI-eSCR ensures Tata Daewoo's commercial vehicles

complying with Euro VI Nitrogen Oxide (NOx) limits by means of the selective catalytic reduction system alone (without the need for exhaust gas recirculation). **EGR-free architecture ensures optimal combustion efficiency, resulting in low fuel consumption and high performance, with support from advanced injection and air handling systems.**

Looking ahead at new developments, the **R&D center at the Gunsan headquarters of Tata Daewoo Commercial Vehicle** in South Korea will continue to benefit from FPT Industrial's **local engineering and technical support**, backed by brand expertise in Turin, Italy.

“We are currently working alongside Tata Daewoo Commercial Vehicle with a view to the next product evolution and the ongoing reduction of CO₂ emissions,” said **Claudio Passerini, Vice President, FPT Industrial Sales & Marketing**. *“This activity is indicative of our strategic partnership and the reason it has proven so successful over the past 20 years. Achieving commercial and technological success in this market is extremely demanding, but we have the same ambitions: providing commercial transport solutions that allow customers all over the world to run efficient and profitable businesses while respecting the environment. Working in close liaison with our OEM partners delivers results of which we can all be proud.”*

Tata Daewoo Commercial Vehicle was founded in 2002 and is a wholly owned subsidiary of Tata Motors.

***FPT Industrial** is a brand of Iveco Group N.V. (EXM: IVG), dedicated to the design, production, and sale of powertrains and solutions for on- and off-road vehicles, as well as marine and power generation applications. Over 8,000 people across ten production sites and ten R&D centers work for FPT Industrial all around the world. Active in nearly 100 different countries, its global sales and its Customer Service department supports all Brand customers. The extensive product offering includes six engine ranges with power outputs from 42 hp to over 1,000 hp, transmissions with torque up to 500 Nm, and front and rear axles from 2.45 to 32 tonne GAW (Gross Axle Weight). FPT Industrial offers the most complete line-up of natural gas engines for industrial applications on the market, with power outputs ranging from 50 to 520 hp. A dedicated ePowertrain division is accelerating the path towards net zero-emissions mobility, with electric drivelines, battery packs, and battery management systems. This extensive offering, and its strong focus on R&D, makes FPT Industrial a world leader in industrial powertrains and solutions. For more information, visit www.fptindustrial.com.*
