

FPT INDUSTRIAL SETS COURSE FOR THE CANNES YACHTING FESTIVAL ALONGSIDE BIMOTOR

Turin, Italy, September 10th, 2025

FPT Industrial, the Iveco Group brand dedicated to the design, production, and sale of powertrains and solutions for on- and off-road vehicles, as well as marine and power generation applications, **is making its return to the heart of the Mediterranean**, putting its marine engines back on center stage at the **Cannes Yachting Festival**, which runs from **9 to 14 September at Vieux Port and Port Canto**. The Brand will be attending the trade show alongside its official distributor **Bimotor**, presenting two engines from its marine line-up for recreational applications at Stand **PALAIS079**.

Each FPT Industrial marine engine is tailored to the customer's needs, embodying the singular story of power it is designed to tell. Manufactured at the company's **Marine & Industrial** plant in Turin, these engines leverage more than sixty years of heritage and experience in marine operations, offering **high performance, high reliability, and broad versatility of application**.

N67 570 EVO – High performance and reliability for cruisers and yachts up to 18 meters

The N67 570 EVO is one of the crown jewels in FPT Industrial's marine portfolio, and **the most powerful engine from the NEF family for marine applications**. Alongside its power, the N67 has been a great success with boaters all over the world for its light weight and quiet operation. Advanced diagnostic equipment allows for easier engine servicing, while oil and filter replacement intervals of up to 300 hours minimize downtime. The recognized reliability of this engine makes it ideal for extensive use, in compliance with international emission standards, including charter applications.

N67 570 EVO – Technical Specifications

Cylinder layout: 6L

Turbocharger: TCA

Displacement [liters]: 6.7

Injection system: Common Rail

Max power [hp @ rpm]: 570 @ 3000

Dry weight [kg]: 721

Full specifications are available on the FPT Industrial website.

S30 – The smallest engine in the line-up speaks for itself in boats of up to 10 meters

Thanks to its **extraordinary mix of high performance and low fuel consumptions** and emissions, the S30, from the F1 engine series, is **perfect for powering any kind of planing or semi-planing pleasure boat up to 10 meters long**. Technologies such as Electronic Common Rail and multi-valve technology provide strong reliability and rapid response even at low-rpm operation. To reduce maintenance and increase engine lifespan, the engine uses oil-cooled pistons and hydraulic valve-clearance adjustment for the chain-driven dual overhead camshaft.

S30 – Technical Specifications

Cylinder layout: 4L

Turbocharger: TCA

Displacement [liters]: 3

Injection system: Common Rail

Max power [hp @ rpm]: 230 @ 4000

Dry weight [kg]: 330

Full specifications are available on the FPT Industrial website.

FPT Industrial is a brand of Iveco Group N.V. (EXM: IVG), dedicated to the design, production, and sale of powertrains and solutions for on- and off-road vehicles, as well as marine and power generation applications. Over 8,000 people across ten production sites and ten R&D centers work for FPT Industrial all around the world. Active in nearly 100 different countries, its global sales and its Customer Service department supports all Brand customers. The extensive product offering includes six engine ranges with power outputs from 30 hp to over 1,000 hp, transmissions with torque up to 500 Nm, and front and rear axles from 2.45 to 32 tonne GAW (Gross Axle Weight). FPT Industrial offers the most complete line-up of natural gas engines for industrial applications on the market, with power outputs ranging from 50 to 520 hp. A dedicated ePowertrain division is accelerating the path towards net zero-emissions mobility, with electric drivelines, battery packs, and battery management systems. This extensive offering, and its strong focus on R&D, makes FPT Industrial a world leader in industrial powertrains and solutions. For more information, visit www.fptindustrial.com.
