

FPT AT CONEXPO: A COMPLETE RANGE OF SOLUTIONS, FROM PLUG-AND-PLAY TO TAILOR-MADE, DESIGNED AROUND CUSTOMER NEEDS

Turin, Italy, February 12th, 2026

FPT, the Iveco Group brand dedicated to the design, production, and sale of powertrains and solutions for on- and off-road vehicles, as well as marine and power generation applications, will be exhibiting at **CONEXPO**, the largest **construction show in North America**, which will take place in **Las Vegas, March 3-7**.

At **CONEXPO** (South Hall 2nd level, booth S82106), **FPT** will be presenting its **complete range of engines for construction machinery**, designed to deliver high performance, reliability and versatility even in the most demanding off-road applications. The **comprehensive offering** includes engines from **2.8 to 16 liters**, compliant with **Tier 4 Final/Stage V** standards, highlighting the company's role among the **top five global players in the off-road sector** and its ability to anticipate the evolving needs of the global construction market.

The Brand's engine range reflects the company's approach as an **adaptable engine manufacturer**, capable of offering both **off-the-shelf products and tailor-made solutions** which are flexible from both a product and service standpoint. Through a high level of **business and engineering flexibility**, FPT Industrial develops customized content and

configurations to support seamless engine integration, helping to reduce costs and accelerate time-to-market while meeting the specific requirements of each application.

The Brand's booth will also feature a dedicated **Customer Service** corner, designed to showcase the full range of services offered and provide direct, qualified support to customers.

FPT is a brand of Iveco Group N.V. (EXM: IVG), dedicated to the design, production, and sale of powertrains and solutions for on- and off-road vehicles, as well as marine and power generation applications. Over 8,000 people across ten production sites and ten R&D centers work for FPT all around the world. Active in nearly 100 different countries, its global sales and its Customer Service department supports all Brand customers. The extensive product offering includes six engine ranges with power outputs from 30 hp to over 1,000 hp, transmissions with torque up to 500 Nm, and front and rear axles from 2.45 to 32 tonne GAW (Gross Axle Weight). FPT offers the most complete line-up of natural gas engines for industrial applications on the market, with power outputs ranging from 50 to 520 hp. A dedicated ePowertrain division is accelerating the path towards net zero-emissions mobility, with electric drivelines, battery packs, and battery management systems. This extensive offering, and its strong focus on R&D, makes FPT a world leader in industrial powertrains and solutions. For more information, visit www.fptindustrial.com.
