

## Press Release

### **IVECO BUS URBANWAY HYBRID crowned "TOP CITY BUS SLOVAKIA TRANSPORT 2025" in Slovakia**

*The **URBANWAY HYBRID** city bus has been awarded the "TOP CITY BUS SLOVAKIA TRANSPORT 2025" title by nearly 2000 readers of "TRANSPORT a LOGISTIKA" magazine and 12 jury experts.*

Vénissieux, October 1st, 2025

The IVECO BUS **URBANWAY HYBRID** has been crowned "**TOP CITY BUS SLOVAKIA TRANSPORT 2025**" in the 24th edition of the prestigious competition, organised by the specialised magazine "TRANSPORT a LOGISTIKA". The title was awarded following votes from nearly 2000 readers and 12 jury experts representing transport, logistics, and automotive associations and unions between June and August 2025.

The competition, which covers 13 categories, offers an accurate representation of brand awareness among users for vehicles and buses in the Slovak market, as well as consumer behaviours within the extensive community of transport companies.

Giorgio Zino, Head of Commercial Operations IVECO BUS in Europe, who thanked the voters for their support, said: *"We are extremely honoured to receive this distinction. It rewards our ongoing commitment to innovate and offer sustainable and efficient mobility solutions. With an energy mix adapted to all missions and the needs of our customers, the **URBANWAY HYBRID**, available in biogas and biofuel versions, presents itself as a proven and efficient alternative."*

Thanks to its hybrid technology, available in biogas and biofuel versions on its **URBANWAY** city bus, IVECO BUS offers an additional mobility solution to reduce the carbon footprint. This innovation not only lowers fuel consumption but also cuts CO2 emissions. It perfectly aligns with the manufacturer's strategy as a leader in alternative traction, committed to leading the energy transition through a combination of technologies. This enables IVECO BUS to offer its customers a range of solutions tailored to the requirements of their missions and operating conditions.

## IVECO BUS

*IVECO BUS is a brand of Iveco Group N.V. (EXM: IVG), a global leader in commercial and specialty vehicles, powertrain, and financial services, listed on the Borsa Italiana in Milan. IVECO BUS designs, manufactures, and markets a wide range of vehicles covering all missions: city, intercity, school transport, line service and tourism.*

*With a worldwide presence and a leading position in Europe in sustainable public transport, IVECO BUS supports private transport operators and public transport authorities in their energy transition with a technology-neutral approach that includes all energies: biofuel, biomethane, battery electric and fuel cell technologies.*

*With an extensive service network, IVECO BUS guarantees worldwide assistance wherever an Iveco Bus vehicle is in operation.*

*In addition, IVECO BUS's **Energy Mobility Solutions** service and consulting offer provides customized support for the coordination of complex electrification projects.*

*A wide range of **IVECO ON** connected services, developed to optimise the operation and maintenance of all-energy vehicle fleets, completes IVECO BUS's comprehensive offering.*

*The company employs over 5,500 people and operates seven manufacturing plants in Europe and Latin America: Annonay and Rorthais in France, Vysoké Myto in the Czech Republic, Brescia and Foggia in Italy, Sete Lagoas in Brazil, and Córdoba in Argentina.*
