Press Release

IVECO BUS and Al Fairuz deliver first three CROSSWAY units to Oman's Public Security Department

IVECO BUS is supplying three units of its flagship intercity range, the CROSSWAY, to the Public Security Department of the Government of Oman. Renowned for its versatility, performance and comfort, CROSSWAY is available in all energy types, including electric.

Vénissieux, 12 December 2025

IVECO BUS and Al Fairuz, the official brand dealer in Oman, delivered three CROSSWAY units to the Public Security Department of Oman. The handover took place during an official ceremony held on 10 December in Muscat, Oman.

The three 12-meter CROSSWAY units, powered by Euro 3 Cursor 9 engines, are configured to carry up to 45 passengers and will join the Public Security Department's fleet to support nationwide transport of officials.

All CROSSWAY vehicles delivered to the Public Security Department of Oman were manufactured at IVECO BUS Vysoke Myto plant in the Czech Republic, Europe's largest bus manufacturing facility, which produces more than 5,000 units annually and is celebrating its 130th anniversary this year.

Haider, Deputy Managing Director of Al Fairuz, commented: "*At Al Fairuz, we are delighted to further strengthen our important partnership with the Omani Government by extending it to the bus segment. This development builds on our well-established relationship, which spans multiple IVECO models, including firefighting and defense units. The delivery of this initial batch of CROSSWAY vehicles is supported by a tailored aftersales solution package that ensures uninterrupted uptime for our customer's demanding mission.*"

Alberto Pellegrini, IVECO BUS Business Manager for the Middle East, added: "*We are very proud of this relevant delivery to the Government of Oman for this important application. These vehicles have been specifically prepared for the severe and highly demanding climate conditions of the Gulf Region, featuring double-glazed windows and a powerful 45 kW air conditioning system. The entire Middle East bus market is growing and continuously raising its quality standards, and IVECO BUS, together with its official distributor Al Fairuz, is ready to take up the challenge!*"

IVECO BUS CROSSWAY: High reliability

As the clear market leader in its segment, CROSSWAY is recognised for its versatility and operational profitability, with over 65,000 units sold across Europe, Africa, and Asia.

Designed for interurban mobility, the CROSSWAY stands out for its reliability and adaptability, making it the most popular intercity vehicle in Europe.

- Ideal for short- and medium-distance passenger transport
- Proven high reliability, with millions of kilometers driven in all conditions
- Excellent productivity: outstanding value for money, fuel efficiency, extended service intervals, and enhanced safety

IVECO BUS has adopted a multi-energy strategy to drive the energy transition across diverse territories and missions, and the CROSSWAY models are now available in all alternative energies, including renewable XTL fuel, biomethane, and battery electric.

IVECO BUS

IVECO BUS is a brand of Iveco Group N.V. (EXM: IVG), a global leader in commercial and specialty vehicles, powertrain, and financial services, listed on the Borsa Italiana in Milan. IVECO BUS designs, manufactures, and markets a wide range of vehicles covering all missions: city, intercity, school transport, line service and tourism.

With a worldwide presence and a leading position in Europe in sustainable public transport, IVECO BUS supports private transport operators and public transport authorities in their energy transition with a technology-neutral approach that includes all energies: biofuel, biomethane, battery electric and fuel cell technologies.

With an extensive service network, IVECO BUS guarantees worldwide assistance wherever an Iveco Bus vehicle is in operation.

*In addition, IVECO BUS's **Energy Mobility Solutions** service and consulting offer provides customized support for the coordination of complex electrification projects.*

*A wide range of **IVECO ON** connected services, developed to optimise the operation and maintenance of all-energy vehicle fleets, completes IVECO BUS's comprehensive offering.*

The company employs over 5,500 people and operates seven manufacturing plants in Europe and Latin America: Annonay and Rorthais in France, Vysoké Myto in the Czech Republic, Brescia and Foggia in Italy, Sete Lagoas in Brazil, and Córdoba in Argentina.
