

## Press Release

### **IVECO BUS supports school mobility in Brazil with a new batch of vehicles for the Caminho da Escola programme**

*IVECO BUS is supporting school mobility in Brazil through the delivery of a new batch of school buses as part of the Caminho da Escola programme, which provides for more than 14,000 vehicles by the end of 2026. Designed and manufactured locally, these vehicles contribute to the implementation of public policies promoting access to education.*

Vénissieux, 25 March 2026

IVECO BUS, the leading manufacturer in the current edition of Brazil's federal Caminho da Escola programme, has delivered a new batch of school buses to the Federal Government during an official event held at its industrial site in Sete Lagoas, in the state of Minas Gerais.

More than 150 units of 15-210 ORE 3 models were handed over on this occasion, as part of a total volume of 2,000 vehicles scheduled for the programme in 2026. Since joining the programme, IVECO BUS has already delivered more than 12,000 school buses and expects to exceed the 14,000-unit mark by the end of 2026.

For more than 15 years, IVECO BUS has been actively involved in the Caminho da Escola programme, developing school transport solutions tailored to local realities. Combining robustness, accessibility and operational efficiency, these vehicles help improve access to education across the country, including in rural and remote areas. All vehicles delivered under the programme are fully designed and manufactured in Brazil at the manufacturer's Sete Lagoas plant, contributing to the strengthening of the national industry and the local industrial ecosystem.

The 10-190 ORE 2 and 15-210 ORE 3 models offered under the programme are designed to meet the specific requirements of school transport in terms of safety, comfort and accessibility, notably through a mobile seating system for passengers with reduced mobility. The 15-210 ORE 3 model can carry up to 59 students plus the driver.

## IVECO BUS

*IVECO BUS is a brand of Iveco Group N.V. (EXM: IVG), a global leader in commercial and specialty vehicles, powertrain, and financial services, listed on the Borsa Italiana in Milan. IVECO BUS designs, manufactures, and markets a wide range of vehicles covering all missions: city, intercity, school transport, line service and tourism.*

*With a worldwide presence and a leading position in Europe in sustainable public transport, IVECO BUS supports private transport operators and public transport authorities in their energy transition with a technology-neutral approach that includes all energies: biofuel, biomethane, battery electric and fuel cell technologies.*

*With an extensive service network, IVECO BUS guarantees worldwide assistance wherever an Iveco Bus vehicle is in operation.*

*In addition, IVECO BUS's **Energy Mobility Solutions** service and consulting offer provides customized support for the coordination of complex electrification projects.*

*A wide range of **IVECO ON** connected services, developed to optimise the operation and maintenance of all-energy vehicle fleets, completes IVECO BUS's comprehensive offering.*

*The company employs over 5,500 people and operates seven manufacturing plants in Europe and Latin America: Annonay and Rorthais in France, Vysoké Myto in the Czech Republic, Brescia and Foggia in Italy, Sete Lagoas in Brazil, and Córdoba in Argentina.*
