INTERIM MANAGEMENT REPORT

(Unaudited)

GENERAL

Iveco Group N.V. (the “Company” and, together with its subsidiaries, the “Iveco Group” or the “Group”) was incorporated as a public limited company (*naamloze vennootschap*) under the laws of the Netherlands on 16 June 2021. The Company’s corporate seat is in Amsterdam, the Netherlands, and its principal office and business address is Via Puglia n. 35, Turin, Italy. The Company is registered with the trade register of the Chamber of Commerce of the Netherlands *(Kamer van Koophandel*) under number 83102701. The Netherlands is the Company’s home member state for the purposes of the EU Transparency Directive (Directive 2004/109/EC, as amended by Directive 2013/50/EU). Unless otherwise indicated or the context otherwise requires, the terms “we”, “us” and “our” refer to Iveco Group N.V. together with its subsidiaries.

The Company was formed in the context of the separation ("the Demerger") of the Commercial and Specialty Vehicles business, the Powertrain business as well as the related Financial Services business from CNH Industrial N.V. The Demerger became effective on 1 January 2022 and the Company ultimately began to act as a holding for the Iveco Group, also providing for central treasury activity in the interest of Group’s subsidiaries.

On 3 January 2022, the Company’s Common Shares started trading on Euronext Milan, a regulated market operated by Borsa Italiana S.p.A. in Milan, Italy. As a result of the listing, the Company became a Dutch Public Interest Entity (OOB) on 3 January 2022.

Iveco Group reports quarterly and annual consolidated financial results in accordance with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board (IASB) and adopted by the European Union (EU-IFRS) for European listing proposes and for Dutch law requirements. This Interim Report is prepared using the euro as the presentation currency.

Iveco Group has the following operating segments:

- ***Truck*** designs, manufactures and distributes a full range of light, medium, and heavy vehicles for the transportation and distribution of goods under the IVECO brand;
- ***Bus*** designs, manufactures and distributes minibuses, city-buses, intercity buses and coaches under the IVECO BUS and HEULIEZ brands;
- ***Powertrain*** designs, manufactures and distributes, under the FPT Industrial brand, a range of combustion engines, alternative propulsion systems, transmission systems and axles for on- and off-road applications, as well as for marine and power generation; and
- ***Financial Services*** offers a range of financial products and services to dealers and customers. Financial Services provides and administers retail financing to customers for the purchase or lease of new and used vehicles sold by brand dealers and distributors of the Group or directly by subsidiaries of the Group. In addition, Financial Services provides wholesale financing to brand dealers and distributors of the Group. Wholesale financing consists primarily of floor plan financing and allows the dealers to purchase and maintain a representative inventory of products. Financial Services also provides discounting of non-dealer trade receivables from legal entities of the Group. Additionally, Financial Services grants support to CNH Industrial Group (CNH), by providing financial services for its European brands, dealers and customers under a vendor and service agreement, receiving a fee for the services rendered.

Furthermore, on 18 March 2026, Iveco Group transferred the full ownership of its Defence business (which manufactures and distributes vehicles for civil defense and civil protection under the IDV brand, and vocational heavy-duty trucks for heavy haulage and off-road missions under the ASTRA brand) to Leonardo S.p.A., as per the terms of the agreement announced on 30 July 2025. In accordance with IFRS 5 - *Non-current Assets Held for Sale and Discontinued Operations*, as the sale became highly probable in July 2025, at that time the Defence business met the criteria to be classified as a disposal group held for sale; it also met the criteria to be classified as Discontinued Operations. The contribution of Defence business to Iveco Group result and cash flows for the first quarter of 2026 is presented as Discontinued Operations in this Interim Report, as following described in section "Result of Operations - Introduction".

The activities carried out by the Truck, Bus and Powertrain Business Units, as well as by the holding company Iveco Group N.V. are collectively referred to as “Industrial Activities”.

Certain financial information in this report has been presented by geographic area. Our geographical regions are: (1) Europe; (2) South America; (3) North America and (4) Rest of World. The geographic designations have the following meanings:

- *Europe*: member countries of the European Union, European Free Trade Association, the United Kingdom, Ukraine, and Balkans;

MERGER AGREEMENT WITH TATA MOTORS

On 30 July 2025, Iveco Group and Tata Motors Limited (“Tata Motors”), a global automotive leader, announced that they had reached an agreement on an envisaged recommended voluntary tender offer (the "Offer") to create a commercial vehicles group with the reach, product portfolio and industrial capability to be a global champion in this dynamic sector. The completion of the Offer was conditional, *inter alia,* on the separation of Iveco Group's Defence business, which occurred on 18 March 2026 with the transfer of the full ownership of the Defence business to Leonardo S.p.A.. The Offer is for all issued common shares of Iveco Group at a price of €14.1 per share (*cum dividend*, excluding the dividend distributed in relation to the sale of the Defence business, which was paid on 22 April 2026 for an amount of €5.8216 per share) in cash (the “Offer Price”). The Offer represents a total consideration of approximately €3.8 billion for Iveco Group, after the separation of Defence business, and excluding as above the net proceeds from the Defence business separation. The Iveco Group Board of Directors unanimously and fully supported the Offer and recommended the Offer for acceptance by the shareholders of Iveco Group. Exor N.V., Iveco Group’s largest shareholder, has irrevocably committed to support the Offer and tender its shareholding representing approximately 27.06% of Iveco Group's common shares and 43.11% of all voting rights. The Offer remains subject - inter alia - to pending regulatory clearances, and is expected to close by the third quarter of 2026.

As per applicable rules, pending publication of the Offer Document, the legal basis, terms, price and key elements of the Tender Offer are available in the Offeror’s Notice. The Offeror’s Notice has been published on behalf of TML CV HS on the website of Tata Motors at www.tatamotors.com and on the Company’s website at www.ivecogroup.com.

ALTERNATIVE PERFORMANCE MEASURES (OR “NON-EU-IFRS FINANCIAL MEASURES”)

Iveco Group monitors its operations through the use of several non-EU-IFRS financial measures including Adjusted EBIT, Adjusted EBIT margin, Adjusted Net Income/(Loss), Adjusted Diluted EPS, Adjusted Income Taxes, Adjusted Effective Tax Rate, Free Cash Flow of Industrial Activities, Net Cash (Debt) and Net Cash (Debt) of Industrial Activities, and Available Liquidity. Iveco Group’s management believes those measures provide useful and relevant information regarding Iveco Group’s operating results and enhance the readers’ ability to assess Iveco Group’s financial performance and financial position. Management uses these non-EU-IFRS financial measures to monitor the underlying performance of Iveco Group’s business and operations, to identify operational trends, as well as to make decisions regarding future spending, resource allocations and other operational decisions as they provide additional transparency with respect to Iveco Group’s core operations. These non-EU-IFRS financial measures have no standardised meaning under EU-IFRS and are unlikely to be comparable to other similarly titled measures used by other companies and are not intended to be substitutes for measures of financial performance and financial position as prepared in accordance with EU-IFRS. Iveco Group's non-EU-IFRS financial measures are defined as follows:

- *Adjusted EBIT:* is defined as EBIT before restructuring costs and non-recurring items, if any. In particular, non-recurring items are specifically disclosed items that management considers rare or discrete events that are infrequent in nature and not reflective of ongoing operational activities. The performance of Iveco Group is reviewed based on the Adjusted EBIT, which the management believes more fully reflects Iveco Group’s profitability, and, as such, Iveco Group uses Adjusted EBIT for internal reporting to assess performance as part of the forecasting, budgeting and decision-making process as it provides additional transparency regarding Iveco Group’s underlying operating performance. The management believes Adjusted EBIT is useful because it excludes items that management believes are not indicative of Iveco Group’s underlying operating performance between periods. The management also believes that Adjusted EBIT is useful for investors and analysts to better understand how management assesses Iveco Group’s underlying operating performance on a consistent basis. Accordingly, Iveco Group believes that Adjusted EBIT provides useful information to third party stakeholders in understanding and evaluating Group’s operations;
- *Adjusted EBIT margin:* is computed by dividing a) Adjusted EBIT by b) Net revenues;
- *Adjusted Net Income/(Loss):* is defined as profit/(loss) for the period, before restructuring costs and non-recurring items, if any, net of the related income tax effect. In particular, non-recurring items are specifically disclosed items that management considers rare or discrete events that are infrequent in nature and not reflective of ongoing operational activities. Iveco Group uses Adjusted Net Income/(Loss) to assess performance as part of its decision-making process as it provides additional insight into Iveco Group’s underlying overall performance, net of income tax. The management believes that Adjusted Net Income/(Loss) is also useful for investors and analysts to better understand how management assesses Iveco Group’s underlying overall performance on a consistent basis. Accordingly, Iveco Group believes that Adjusted Net Income/(Loss) provides useful information to third party stakeholders in understanding and evaluating Group’s operations;
- *Adjusted Diluted EPS:* is computed by dividing Adjusted Net Income/(Loss) attributable to Iveco Group N.V. by a weighted-average number of Common Shares outstanding during the period that takes into consideration potential Common Shares outstanding deriving from the Iveco Group share-based payment awards, when inclusion is not anti-dilutive. When Iveco Group provides guidance for adjusted diluted EPS, the Group does not provide guidance on an earnings per share basis because the EU-IFRS measure will include potentially significant items that have not yet occurred and are difficult to predict with reasonable certainty prior to year-end;
- *Adjusted Income Taxes:* is defined as income taxes less the tax effect of restructuring expenses and non-recurring items, and non-recurring tax charges or benefits;
- *Adjusted Effective Tax Rate (Adjusted ETR):* is computed by dividing a) Adjusted Income Tax (expense) benefit by b) Adjusted Profit (Loss) before taxes. Adjusted Income Tax (expense) benefit represents income tax (expense) benefit, adjusted for the income tax (expense) benefit of

restructuring costs and non-recurring items, if any, as well as any non-recurring tax expenses or benefits. Adjusted Profit/(Loss) before taxes represents profit/(loss) before taxes of the applicable period, adjusted for restructuring costs and non-recurring items, if any. Adjusted ETR fully reflects Iveco Group's level of taxation, based on Group's Profit/(Loss) before taxes, removing extraordinary and non-recurring items. The management believes that this is useful for investors and analysts to better understand Iveco Group's level of taxation on a consistent basis and enables them to compare Iveco Group's level of taxation with that of other companies;

- *Free Cash Flow of Industrial Activities (or Industrial Free Cash Flow):* refers to Industrial Activities, only, and is computed as consolidated cash flow from operating activities less: cash flow from operating activities of Financial Services; investments of Industrial Activities in property, plant and equipment and intangible assets; as well as other changes and intersegment eliminations. Iveco Group views Free Cash Flow as a useful measure for measuring its cash generation ability;
- *Net Cash (Debt) and Net Cash (Debt) of Industrial Activities:* Net Cash (Debt) is defined as total Debt (including debt payable to CNH deriving from financing activities and sale of trade receivables) plus Derivative liabilities, net of Cash and cash equivalents, Derivative assets and other current financial assets (primarily current securities, short-term deposits and investments towards high-credit rating counterparties) and financial receivables from CNH deriving from financing activities and sale of trade receivables. Iveco Group provides the reconciliation of Net Cash (Debt) to Total (Debt), which is the most directly comparable EU-IFRS financial measure included in the Group's Consolidated Statement of Financial Position. Due to different sources of cash flows used for the repayment of the debt between Industrial Activities and Financial Services (by cash from operations for Industrial Activities and by collection of financing receivables for Financial Services), management separately evaluates the cash flow performance of Industrial Activities using Net Cash (Debt) of Industrial Activities; and
- *Available Liquidity*: is defined as cash and cash equivalents, including restricted cash, undrawn medium-term unsecured committed facilities, other current financial assets (primarily current securities, short-term deposits and investments towards high-credit rating counterparties), and financial receivables from CNH deriving from financing activities and sale of trade receivables.

RESULTS OF OPERATIONS

INTRODUCTION

The operations, key financial measures, and financial analysis differ significantly for manufacturing and distribution businesses and financial services businesses; therefore, for a better understanding of our operations and financial results, we present the following commentary split by Industrial Activities and Financial Services. Industrial Activities represent the activities carried out by Truck, Bus, and Powertrain Business Units, as well as the holding company Iveco Group N.V., that also provides centralised treasury services.

Defence Business Sale

On 18 March 2026, Iveco Group transferred the full ownership of its Defence business (IDV and ASTRA brands) to Leonardo S.p.A., as per the terms of the agreement announced on 30 July 2025. The cash consideration received at closing amounted to €1,615 million. The transaction resulted in the recognition of a consolidated net gain on disposal of Defence business of €1,254 million, net of €12 million costs, after-tax, incurred in the first quarter of 2026 by Iveco Group for the separation of that business (€14 million before-tax). On 22 April 2026, an extraordinary interim dividend was paid in the amount of €1,551 million, or €5.8216 per outstanding common share, based on the net proceeds resulting from the sale of the Defence business, as further discussed in paragraph "Earnings reserves" of Note 20 – Equity to the Consolidated Financial Statements. Defence business had been classified as a disposal group held for sale and as Discontinued Operations in Iveco Group financial statements since the third quarter 2025, following the signing of the agreement announced on 30 July 2025, in accordance with IFRS 5 – *Non-current Assets Held for Sale and Discontinued Operations*. First quarter 2025 figures in the Income Statement and Statement of Cash Flows have been recast consistently.

Unless otherwise stated, the figures and comments included in the Result of operations sections below refer to Continuing Operations, only.

Cash and cash equivalents at 31 March 2026 included €69 million (€81 million at 31 December 2025) of restricted cash that mainly consists of Central Bank deposits established for regulatory purposes by a subsidiary with a banking license. At 31 March 2026, undrawn medium-term unsecured committed facilities were €1,900 million (€1,900 million at 31 December 2025) and other current financial assets were €4 million (€3 million at 31 December 2025).

At 31 March 2026, the aggregate of cash and cash equivalents, undrawn medium-term unsecured committed facilities and other current financial assets, which the Group considers to constitute the Group's principal liquid assets (or "Available liquidity", a non-EU-IFRS financial measure as defined in paragraph "Alternative performance measures (or "Non-EU-IFRS financial measures")" of section "General" above), totalled €5,498 million (€5,192 million at 31 December 2025, of which €4,693 million related to Continuing Operations). At 31 March 2026, this amount also included €12 million financial receivables (€1 million at 31 December 2025) from CNH deriving from financing activities and the sale of trade receivables.

A reconciliation of Cash and cash equivalents of Continuing Operations to total Available liquidity is provided as follows:

(€ million)	At 31 March 2026	At 31 December 2025
Cash and cash equivalents of Continuing Operations[1]	**3,582**	**2,953**
Financial payables to Discontinued Operations[1]		(164)

Financial receivables from Continuing Operations[1]		164

(1) At 31 December 2025, Cash and cash equivalents of Continuing Operations included €164 million net balance between cash temporally deposited by Discontinued Operations (Defence business) with Iveco Group's central treasury and financial payables of Discontinued Operations towards Financial Services.
(2) This item includes short-term deposits and investments towards high-credit rating counterparties.
(3) This item includes financial receivables from CNH deriving from financing activities and sale of trade receivables.
(4) The amount at 31 March 2026 is before the extraordinary interim dividend distribution of €1,551 million, occurred on 22 April 2026, on the net proceeds from the sale of Defence business.

Cash Flows from/(used in) Operating Activities from Continuing Operations

Cash generated by operating activities in the three months ended 31 March 2026 totalled €223 million and primarily comprised the following elements:

- €742 million generated by change in receivables from financing activities
- plus €175 million in non-cash charges for depreciation and amortisation (net of assets sold under buy-back commitments and operating leases)
- plus €132 million change in trade receivables
- change in inventories which absorbed €416 million
- change in trade payables which absorbed €133 million
- minus €116 million in loss for the period
- change in provisions which absorbed €79 million
- minus €54 million change in deferred income taxes
- change in other receivables/payables which absorbed €21 million.

In the three months ended 31 March 2025, cash absorbed by operating activities was €200 million as a result of €501 million seasonal absorption from change in inventories, change in trade payables which absorbed €336 million, and change in other receivables/payables which absorbed €176 million, partially offset by €546 million cash generated from receivables from financing activities, plus cash generated from income-related inflows (calculated as profit plus amortisation and depreciation, dividends, changes in provisions and deferred income taxes, net of various items related to sales with buy-back commitments and operating leases, net of gains/losses on disposals and other non-cash items) for a total amount of €166 million.

Cash Flows from/(used in) Investing Activities from Continuing Operations

In the three months ended 31 March 2026, cash generated by investing activities totalled €1,183 million, primarily due to other changes that generated €1,303 million, which mainly included the proceeds of €1,615 million from the sale of Defence business, partially offset by investments in tangible and intangible assets that used €124 million in cash (including €90 million in capitalised development costs). Investments in tangible and intangible assets are net of investments in commercial vehicles for the Group's long-term rental operations and of investments relating to vehicles sold under buy-back commitments, which are reflected in cash flows relating to operating activities.

In the three months ended 31 March 2025, cash generated by investing activities totalled €52 million, primarily due to €93 million net cash generated by other current and non-current financial assets, and other changes that generated €85 million in cash, partially offset by investments in tangible and intangible assets that used €127 million in cash (including €81 million in capitalised development costs).

Cash Flows from/(used in) Financing Activities from Continuing Operations

In the three months ended 31 March 2026, cash used by financing activities totalled €798 million compared to €565 million used in the three months ended 31 March 2025. The increased absorption was mainly due to reduced funding needs from the Financial Services portfolio.

CONSOLIDATED DEBT

The Group's consolidated Debt at 31 March 2026 and 31 December 2025 is as detailed in the following table:

	At 31 March 2026			At 31 December 2025		
(€ million)	**Consolidated**	**Industrial Activities**	**Financial Services**	**Consolidated**	**Industrial Activities**	**Financial Services**
Total Debt	**5,135**	**1,893**	**4,300**	**6,061**	**2,239**	**5,150**

Iveco Group believes that Net Cash (Debt), a non-EU-IFRS financial measure as defined in paragraph "Alternative performance measures (or "Non-EU-IFRS financial measures")" of section "General" above, is a useful analytical metric for measuring the Group's effective borrowing requirements. The Group provides a separate analysis of Net Cash (Debt) of Industrial Activities and Net Cash (Debt) of Financial Services to reflect the different cash flow management practices in the two activities. Industrial Activities reflects the consolidation of all majority-owned subsidiaries, except for Financial Services. Financial Services reflects the consolidation of the Financial Services' legal entities.

The calculation of Net Cash (Debt) at 31 March 2026 and 31 December 2025 and the reconciliation of Total (Debt), the EU-IFRS financial measure that the Group believes to be most directly comparable, to Net Cash (Debt), are shown below:

	At 31 March 2026			At 31 December 2025

Total Net Cash (Debt)	**(1,529)**	**2,205**	**(3,734)**	**(2,543)**	**1,784**	**(4,327)**

(1) As a result of the role played by the central treasury, debt for Industrial Activities also includes funding raised by the central treasury on behalf of Financial Services (included under Intersegment financial receivables). Intersegment financial receivables for Financial Services, on the other hand, represent loans or advances to Industrial Activities – for receivables sold to Financial Services that do not meet the derecognition requirements – as well as cash deposited temporarily with the central treasury. At 31 December 2025, Intersegment notes payable and Intersegment financial receivables of Industrial Activities and Financial Services also included the balance towards Discontinued Operations.
(2) This item includes payables related to purchases of receivables or collections with settlement in the following days.
(3) This item includes receivables related to sales of receivables or collections with settlement in the following days.
(4) This item includes short-term deposits and investments towards high-credit rating counterparties.
(5) Derivative assets and Derivative liabilities include, respectively, the positive and negative fair values of derivative financial instruments.

Net Debt of Continuing Operations at 31 March 2026 was €1,505 million lower compared to 31 December 2025, mainly due to the proceeds of €1,615 million from the sale of Defence business and lower debt of Financial Services due to lower portfolio, partially offset by Free Cash Flow absorption from Industrial Activities of €681 million.

The following table shows the change in Net Cash (Debt) of Industrial Activities for the three months ended 31 March 2026 and 2025:

	Three months ended 31 March

Change in Net Cash (Debt) of Industrial Activities from Continuing Operations	**912**	**(803)**

(1) Change in working capital includes changes in: trade receivables, inventories, trade payables and other receivables/payables.
(2) Excluding assets sold under buy-back commitments and assets under operating leases.
(3) In the three months ended 31 March 2026, this item mainly includes the proceeds of €1,615 million from the sale of Defence business.

Iveco Group believes that Free Cash Flow of Industrial Activities, a non-EU-IFRS financial measure as defined in paragraph "Alternative performance measures (or "Non-EU-IFRS financial measures")" of section "General" above, is a useful analytical metric for measuring the cash generation ability of the Group's Industrial Activities. For the three months ended 31 March 2026, Free Cash Flow of Industrial Activities was negative for €681 million, compared to negative €847 million for the three months ended 31 March 2025), mainly driven by lower working capital absorption.

The reconciliation of Free Cash Flow of Industrial Activities to Net cash provided by (used in) Operating Activities, the EU-IFRS financial measure that Iveco Group believes to be most directly comparable, for the three months ended 31 March 2026 and 2025, is shown below:

	Three months ended 31 March	
(€ million)	**2026**	**2025**
Cash Flows from/(used in) Operating Activities from Continuing Operations	**223**	**(200)**

Investments in property, plant and equipment, and intangible assets of Industrial Activities	(123)	(126)
Other changes[(1)]	(40)	(17)
Free Cash Flow of Industrial Activities from Continuing Operations	**(681)**	**(847)**

(1) This item primarily includes change in the intersegment financial receivables and capital increases in intersegment investments.

The non-EU-IFRS financial measures (Available liquidity, Net Cash (Debt) and Free Cash Flow of Industrial Activities) used in this section should neither be considered as a substitute for, nor superior to, measures of financial performance prepared in accordance with EU-IFRS. In addition, these non-EU-IFRS financial measures may not be computed in the same manner as similarly titled measures used by other companies.

With the purpose of further diversifying its funding structure, Iveco Group has established a €2 billion EMTN Programme to access the capital markets through the issuance of bonds. Furthermore, in Europe, IC Financial Services S.A. issued commercial paper which had an amount of €62 million outstanding at 31 March 2026 (€59 million at 31 December 2025).

As of 31 March 2026, the credit rating assigned by Fitch Ratings to Iveco Group N.V. is a Long-Term Issuer Default Rating (IDR) of 'BBB-'. The Rating Watch is Positive.

Iveco Group continues to closely monitor its liquidity and capital resources for any potential impact that the challenging environment in which it operates, including current macroeconomic and geopolitical issues, energy and material price variability, may have on its operations. Iveco Group believes that its cash and cash equivalents, access to credit facilities, and cash flows from future operations will be adequate to fund its known cash needs also in the context of that challenging environment.

CORPORATE INFORMATION

Iveco Group N.V. (the “Company” and, together with its subsidiaries, the “Iveco Group” or the “Group”) was incorporated as a public limited company (*naamloze vennootschap*) under the laws of the Netherlands on 16 June 2021. The Company’s corporate seat is in Amsterdam, the Netherlands, and its principal office and business address is Via Puglia n. 35, Turin, Italy. The Company is registered with the trade register of the Chamber of Commerce of the Netherlands *(Kamer van Koophandel*) under number 83102701. The Netherlands is the Company’s home member state for the purposes of the EU Transparency Directive (Directive 2004/109/EC, as amended by Directive 2013/50/EU). Unless otherwise indicated or the context otherwise requires, the terms “we”, “us” and “our” refer to Iveco Group N.V. together with its subsidiaries.

The Company was formed in the context of the separation ("the Demerger") of the Commercial and Specialty Vehicles business, the Powertrain business as well as the related Financial Services business from CNH Industrial N.V. The Demerger became effective on 1 January 2022 and the Company ultimately began to act as a holding for the Iveco Group, also providing for central treasury activity in the interest of Group’s subsidiaries.

On 3 January 2022, the Company’s Common Shares started trading on Euronext Milan, a regulated market operated by Borsa Italiana S.p.A. in Milan, Italy. As a result of the listing, the Company became a Dutch Public Interest Entity (OOB) on 3 January 2022.

Iveco Group N.V. is a global automotive leader that, through its various businesses, designs, produces and sells trucks, commercial vehicles and buses, in addition to a broad portfolio of powertrain applications. In addition, Iveco Group's Financial Services segment offers a range of financial products and services to dealers and customers. See Note 26 “Segment reporting” for additional information on Iveco Group's segments.

Merger Agreement with Tata Motors

On 30 July 2025, Iveco Group and Tata Motors Limited (“Tata Motors”), a global automotive leader, announced that they had reached an agreement on an envisaged recommended voluntary tender offer (the "Offer") to create a commercial vehicles group with the reach, product portfolio and industrial capability to be a global champion in this dynamic sector. The completion of the Offer was conditional, *inter alia,* on the separation of Iveco Group's Defence business, which occurred on 18 March 2026 with the transfer of the full ownership of the Defence business to Leonardo S.p.A.. The Offer is for all issued common shares of Iveco Group at a price of €14.1 per share (*cum dividend*, excluding the dividend distributed in relation to the sale of the Defence business, which was paid on 22 April 2026 for an amount of €5.8216 per share) in cash (the “Offer Price”). The Offer represents a total consideration of approximately €3.8 billion for Iveco Group, after the separation of Defence business, and excluding as above the net proceeds from the Defence business separation. The Iveco Group Board of Directors unanimously and fully supported the Offer and recommended the Offer for acceptance by the shareholders of Iveco Group. Exor N.V., Iveco Group’s largest shareholder, has irrevocably committed to support the Offer and tender its shareholding representing approximately 27.06% of Iveco Group's common shares and 43.11% of all voting rights. The Offer remains subject - inter alia - to pending regulatory clearances, and is expected to close by the third quarter of 2026.

As per applicable rules, pending publication of the Offer Document, the legal basis, terms, price and key elements of the Tender Offer are available in the Offeror’s Notice. The Offeror’s Notice has been published on behalf of TML CV HS on the website of Tata Motors at www.tatamotors.com and on the Company’s website at www.ivecogroup.com.

ACCOUNTING POLICIES

Basis of preparation

The Interim Condensed Consolidated Financial Statements at 31 March 2026 together with the notes thereto (the "Interim Condensed Consolidated Financial Statements”) were authorised for issuance on 6 May 2026 and have been prepared in accordance with the IFRS Accounting Standards (IFRS) as issued by the International Accounting Standards Board (IASB) and endorsed by the European Union (EU-IFRS).

The Interim Condensed Consolidated Financial Statements have been prepared in accordance with IAS 34 - *Interim Financial Reporting* applying the same accounting principles and policies used in the preparation of Iveco Group Consolidated Financial Statements at 31 December 2025, available on the Company's website, except as described in the following paragraph “New standards and amendments effective from 1 January 2026”.

The financial statements are prepared under the historical cost convention, modified as required for the measurement of certain financial instruments, as well as on a going concern basis. Despite operating in a continuously difficult economic and financial environment negatively impacted by the effects of current macroeconomic and geopolitical issues, energy and material price variability, the Group’s assessment is that no material uncertainties (as defined in paragraph 25 of IAS 1) exist about its ability to continue as a going concern, in view also of the measures undertaken by the Group to preserve cash and contain costs, and to preserve its industrial and financial flexibility and its strong liquidity position.

These Interim Condensed Consolidated Financial Statements are prepared using the euro as the presentation currency.

Use of accounting estimates and management's assumptions

The preparation of the Interim Condensed Consolidated Financial Statements requires management to make estimates and assumptions that affect the reported amounts of income, expenses, assets, liabilities, accumulated other comprehensive income and disclosure of contingent assets and contingent liabilities. Furthermore, certain valuation procedures, in particular those of a more complex nature, are only carried out in full during the preparation of the annual financial statements, when all the information required is available, other than in the event that there are indications of impairment when an immediate assessment is necessary. In the same way, the actuarial valuations that are required for the determination of employee benefit provisions are also usually carried out during the preparation of the annual consolidated financial statements. The recoverability of deferred tax assets is assessed quarterly using financial results and figures from budget and plans for subsequent years. Income taxes are recognised based upon the best estimate of the actual income tax rate expected for the full financial year.

Due to the currently unforeseeable global consequences of current macroeconomic and geopolitical issues, energy and material price variability, these estimates and assumptions are subject to increased uncertainty. Actual results could differ materially from the estimates and assumptions used in the preparation of the financial statements. If in the future such estimates and assumptions, which are based on management's best judgment at the date of the Interim Condensed Consolidated Financial Statements, deviate from the actual circumstances, the original estimates and assumptions will be modified as appropriate in the period in which the circumstances change.

These Interim Condensed Consolidated Financial Statements include all updates of estimates and assumptions considered necessary by management to fairly state the Group's results of operations, financial position and cash flows. See section "Accounting policies", paragraph "Use of estimates", in the Iveco Group Consolidated Financial Statements at 31 December 2025 for a description of the estimates, main judgments and assumptions at that date.

Iveco Group is exposed to operational financial risks such as credit risk, liquidity risk and market risk, mainly relating to exchange rates and interest rates. These Interim Condensed Consolidated Financial Statements do not include all the information and notes about financial risk management required in the preparation of annual financial statements. Iveco Group believes that the risks and uncertainties identified are in line with the main risks and uncertainties to which the Group is exposed and that were presented in its Annual Report at 31 December 2025. For a detailed description of this information see the "Risk factors" section and Note 30 "Information on financial risks" of Iveco Group Consolidated Financial Statements at 31 December 2025. Those risks and uncertainties should be read in conjunction with this Interim Report, including its notes and disclosures. Additional risks and uncertainties not currently known or that are currently judged to be immaterial may also materially affect the Group's business, financial condition or operating results.

Format of the financial statements

Iveco Group presents an income statement using a classification based on the function of expenses (otherwise known as the "cost of sales" method), rather than one based on their nature, as this is believed to provide information that is more relevant.

For the statement of financial position, a mixed format has been selected to present current and non-current assets and liabilities, as permitted by IAS 1 – *Presentation of Financial Statements*. The Consolidated Financial Statements include both industrial activities companies and financial services companies. The investment portfolios of the financial services companies are included in current assets, as the investments will be realised in their normal operating cycle. However, financial services companies obtain only a portion of their funding from the market; the remainder is obtained from the parent company (included in the Industrial Activities) through its treasury activity, which lends funds both to industrial activities companies and to financial services companies as the need arises. This financial services structure within the Iveco Group does not allow the separation of financial liabilities funding the financial services operations (whose assets are reported within current assets) and those funding the industrial activities operations. Presentation of financial liabilities as current or non-current based on their date of maturity would not facilitate a meaningful comparison with financial assets, which are categorised on the basis of their normal operating cycle.

The Condensed Consolidated Statement of Cash Flows is presented using the indirect method.

New standards and amendments effective from 1 January 2026

- on 30 May 2024, the IASB issued the *Amendments to the Classification and Measurement of Financial Instruments* (Amendments to IFRS 9 and IFRS 7), to address matters identified during the post-implementation review of the classification and measurement requirements of IFRS 9 - *Financial Instruments*. In particular, these amendments clarify the classification of financial assets with environmental, social and corporate governance (ESG) and similar features, the settlement of liabilities through electronic payment systems and introduce additional disclosure requirements regarding investments in equity instruments designated at fair value through other comprehensive income and financial instruments with contingent features. The amendments are effective for annual reporting periods beginning on or after 1 January 2026. These amendments had no impact on these Interim Condensed Consolidated Financial Statements;
- on 18 July 2024, the IASB issued *Annual Improvements to IFRS Accounting Standards — Volume 11* which contains amendments to the following five standards: IFRS 1 - *First-time Adoption of International Financial Reporting Standards*, IFRS 7 - F*inancial Instruments: Disclosures and its accompanying Guidance on implementing IFRS 7*, IFRS 9 - *Financial Instruments*, IFRS 10 - *Consolidated Financial Statements*, and IAS 7 - *Statement of Cash Flows*. The amendments are effective on or after 1 January 2026 and earlier application is permitted. These amendments had no impact on these Interim Condensed Consolidated Financial Statements;
- on 18 December 2024, the IASB issued the *Amendments to IFRS 9 and IFRS 7 - Contracts Referencing Nature-dependent Electricity*, to clarify the application of the "own-use" requirements for in-scope contracts, permitting hedge accounting if these contracts are used as hedging

instruments and adding new disclosure requirements. The amendments are effective for annual periods beginning on or after 1 January 2026, with earlier application permitted. These amendments had no impact on these Interim Condensed Consolidated Financial Statements.

Accounting standards, amendments and interpretations not yet applicable and not early adopted by the Group

See paragraph “Accounting standards, amendments and interpretations not yet applicable and not early adopted by the Group" of the section “Accounting policies” in the Notes to Consolidated Financial Statements at 31 December 2025 for a description of other new standards not yet effective and not adopted as of 31 March 2026.

DEFENCE BUSINESS SALE

On 18 March 2026, Iveco Group transferred the full ownership of its Defence business (IDV and ASTRA brands) to Leonardo S.p.A., as per the terms of the agreement announced on 30 July 2025. The cash consideration received at closing amounted to €1,615 million. The transaction resulted in the recognition of a consolidated net gain on disposal of Defence business of €1,254 million, net of €12 million costs, after-tax, incurred in the first quarter of 2026 by Iveco Group for the separation of that business (€14 million before-tax). On 22 April 2026, an extraordinary interim dividend was paid in the amount of €1,551 million, or €5.8216 per outstanding common share, based on the net proceeds resulting from the sale of the Defence business, as further discussed in paragraph “Earnings reserves” of Note 20 – Equity to the Consolidated Financial Statements. Defence business had been classified as a disposal group held for sale and as Discontinued Operations in Iveco Group financial statements since the third quarter 2025, following the signing of the agreement announced on 30 July 2025, in accordance with IFRS 5 – *Non-current Assets Held for Sale and Discontinued Operations*. First quarter 2025 figures in the Income Statement and Statement of Cash Flows have been recast consistently.

That presentation of the Defence business has resulted in the following:

- the operating results of the Defence business for the three months ended 31 March 2026 and 2025 have been excluded from the Group’s Continuing Operations and are presented as a single line item "Post-tax profit of Discontinued Operations - Defence business" inside item "Profit/(Loss) from Discontinued Operations, net of tax" within the Interim Condensed Consolidated Income Statement. In order to present the financial effects of the Discontinued Operations, revenues and expenses arising from intercompany transactions were eliminated except for those revenues and expenses that are considered to continue after the disposal of the Discontinued Operations. However, no profit or loss has been recognised for intercompany transactions within the Interim Condensed Consolidated Income Statement
- the assets and liabilities of the Defence business have been classified as Assets held for sale and Liabilities held for sale within the Interim Condensed Consolidated Statement of Financial Position at 31 December 2025
- all cash flows arising from the Defence business have been presented separately in the appropriate items as Cash flows from operating, investing and financing activities, respectively, from Discontinued Operations within the Interim Condensed Consolidated Statement of Cash Flows for the three months ended 31 March 2026 and 2025. These cash flows represent those arising from transactions with third parties.

The following table represents the major classes of assets and liabilities of Defence business classified as Discontinued Operations at 31 December 2025:

During the three months ended 31 March 2026, the Group capitalised new development costs of €90 million (€81 million in the three months ended 31 March 2025).

The costs in all periods were primarily attributable to spending on engine development associated with emission requirements and continued investment in new products.

5. Share of the profit/(loss) of investees accounted for using the equity method

In the three months ended 31 March 2026 and 2025, Iveco Group's share in the net profit or loss of the investees accounted for using the equity method was a gain of €3 million and €6 million, respectively.

Other expenses consist of miscellaneous costs which cannot be allocated to specific functional areas, such as accruals for various provisions not attributable to other items of cost of sales or selling, general and administrative costs. Other expenses amounted to €77 million and €87 million in the three months ended 31 March 2026 and 2025, respectively, and primarily included €51 million and €59 million costs, respectively, related to certain claims arising from the EU Commission's 2016 antitrust settlement decision announced on 19 July 2016.

8. Net financial income/(expenses)

The item "Net financial income/(expenses)" is detailed as follows:

	Three months ended 31 March	
(€ million)	**2026**	**2025**
Financial income	40	46
Financial expenses	83	83
Net financial income/(expenses)	**(43)**	**(37)**

Capitalised borrowing costs amounted to €6 million and €5 million during the three months ended 31 March 2026 and 2025, respectively.

Higher net financial expenses in the three months ended 31 March 2026 compared to the previous period were due to lower interest income in Türkiye and Brazil.

9. Income tax (expense) benefit

Income tax (expense) benefit recognised in the Condensed Consolidated Income Statement consists of the following:

	Three months ended 31 March	
(€ million)	**2026**	**2025**
Current taxes	(15)	(9)
Deferred taxes	3	2
Taxes relating to prior periods	48	4
Total Income tax (expense) benefit	**36**	**(3)**

Income tax benefit for the three months ended 31 March 2026 was €36 million, based on a loss before taxes of €152 million, with effective tax rate of 23.7%, compared to income tax expense of €3 million for the three months ended 31 March 2025, based on a profit before taxes of €17 million, with effective tax rate of 17.6%.

As in all financial reporting periods, Iveco Group assessed the realisability of its deferred tax assets, which relate to multiple tax jurisdictions in all regions of the world. While no assessment changes occurred during the current period, it is possible that, within the next twelve months, assessment changes could occur and may have a material impact on Iveco Group's results of operations. Iveco Group operates in many jurisdictions around the world and is routinely subject to income tax audits. As various ongoing audits are concluded, or as the applicable statutes of limitations expire, it is possible Iveco Group's amount of unrecognised tax benefits could change during the next twelve months.

10. Earnings per share

Basic earnings/(loss) per Common Share (EPS) is computed by dividing the Profit/(loss) for the period attributable to the owners of the parent by the weighted average number of Common Shares outstanding (after deduction of treasury shares) during the period.

Shares acquired under the buy-back program are included in treasury stock of the Company and, therefore, are deducted from the weighted average number of Common Shares outstanding when calculating earnings per share. For additional information on the buy-back program, see Note 20 "Equity".

Diluted EPS reflects the potential dilution that could occur on the conversion of all dilutive potential Common Shares into Common Shares. Restricted share units and performance share units deriving from the Iveco Group share-based payment awards are considered dilutive potential Common Shares.

A reconciliation of basic and diluted earnings/(loss) per share is as follows:

		Three months ended 31 March

Goodwill is allocated to the segments as follows: Truck for €5 million, Bus for €46 million and Financial Services for €12 million. Goodwill and intangible assets with indefinite useful lives are tested for impairment annually or more frequently if a triggering event occurs and impairment indicators are identified. Iveco Group performed its most recent annual impairment review as of 31 December 2025. The results of the impairment tests confirmed the absence of an impairment loss. During the three months ended 31 March 2026 no impairment indicators were identified.

12. Property, plant and equipment

Changes in the carrying amount of Property, plant and equipment for the three months ended 31 March 2026 were as follows:

At 31 March 2026, right-of-use assets refer primarily to the following lease contracts: industrial buildings for €125 million (€117 million at 31 December 2025), plant, machinery and equipment for €24 million (€25 million at 31 December 2025), and other assets for €34 million (€39 million at 31 December 2025). For a description of the related lease liabilities, see Note 22 "Debt".

Short-term and low-value leases are not recorded in the statement of financial position; for these leases, Iveco Group recognises a lease expense in the income statement on a straight-line basis over the lease term. In the three months ended 31 March 2026 and 2025, €2 million were recognised in income statement for such leases.

13. Investments and other non-current financial assets

Investments and other non-current financial assets at 31 March 2026 and 31 December 2025 consisted of the following:

Changes in Investments were as follows:

(€ million)	At 31 December 2025	Revaluations/ (Write-downs)	Other changes	At 31 March 2026

Other investments	205	3	(2)	206
Total Investments	**214**	**3**	**(2)**	**215**

Revaluations and write-downs primarily consist of adjustments for the result of the period to the carrying amount of investments accounted for using the equity method.

14. Leased assets

Leased assets include vehicles leased to retail customers by Financial Services under operating lease arrangements. Such leases typically have terms of 3 to 5 years with options available for the lessee to purchase the equipment at the lease term date. Revenues for non-lease components are accounted for separately.

Changes in the carrying amount of Leased assets for the three months ended 31 March 2026 were as follows:

(€ million)	Carrying amount at 31 December 2025	Additions	Depreciation	Disposals and other changes	Carrying amount at 31 March 2026

Iveco Group provides and administers financing for retail purchases of new and used vehicles sold through its dealer network. Wholesale receivables arise primarily from the sale of goods to dealers, distributors and end customers and, to a lesser extent, the financing of dealer operations. For the terms of retail financing and finance leases, as well as the standard terms of wholesale receivable agreements and the assessment of dealers' credit worthiness, see Note 17 "Current receivables and Other current financial assets" to the Consolidated Financial Statements at 31 December 2025, paragraph "Receivables from financing activities".

Receivables from financing activities are primarily related to Europe.

The ageing of Receivables from financing activities as of 31 March 2026 and 31 December 2025 is as follows:

								At 31 March 2026

Loss allowance - Receivables from financing activities

Loss allowance changes for receivables from financing activities (retail and wholesale) for the three months ended 31 March 2026 are as follows:

	Three months ended 31 March 2026							
	Retail				Wholesale			
(€ million)	Stage 1 12 months ECL	Stage 2 Lifetime ECL	Stage 3 Lifetime ECL	Total	Stage 1 12 months ECL	Stage 2 Lifetime ECL	Stage 3 Lifetime ECL	Total

Receivables, net of allowance (ending balance)	**51**	**1**	**1**	**53**	**3,824**	**191**	**103**	**4,118**

At 31 March 2026, the change in loss allowance for the retail portfolio is primarily due to the release of allowance following payment received, mainly on one customer in Italy. For the wholesale portfolio the change in loss allowance is mainly due to the release on stage 1 collective allowances due to lower volumes covered.

Loss allowance's additions and reversals are included in cost of sales.

Loss allowance changes for receivables from financing activities (retail and wholesale) for the three months ended 31 March 2025 were as follows:

	Three months ended 31 March 2025							
	Retail				Wholesale			
(€ million)	Stage 1 12 months ECL	Stage 2 Lifetime ECL	Stage 3 Lifetime ECL	Total	Stage 1 12 months ECL	Stage 2 Lifetime ECL	Stage 3 Lifetime ECL	Total

Receivables, net of allowance (ending balance)	**75**	**2**	**1**	**78**	**4,153**	**221**	**115**	**4,489**

At 31 March 2025, the change in loss allowance for credit losses for the retail portfolio was mainly related to recoveries through cash received and enforcement of collaterals. For the wholesale portfolio the change in loss allowance is due to the increase of individual allowances.

Loss allowance changes for receivables from financing activities (retail and wholesale) for the year ended 31 December 2025 were as follows:

	Year ended 31 December 2025							
	Retail				Wholesale			
(€ million)	Stage 1 12 months ECL	Stage 2 Lifetime ECL	Stage 3 Lifetime ECL	Total	Stage 1 12 months ECL	Stage 2 Lifetime ECL	Stage 3 Lifetime ECL	Total

Receivables, net of allowance (ending balance)	**54**	**—**	**1**	**55**	**4,361**	**229**	**113**	**4,703**

At 31 December 2025, the change in loss allowance for the retail portfolio was mainly related to the release of stage 2 collective allowances for four large Italian customers upon their upgrade from stage 2 to stage 1. For the wholesale portfolio, the change in loss allowance is mainly due to the increase in individual allowances concentrated on a few customers, while the collective allowances remained flat compared to 31 December 2024.

For further information on Iveco Group's credit risk profile and concentration, the credit quality of its financing receivables, internal risk grades and basis for recognition of expected credit loss provision and the components of loss allowance, see Note 17 "Current receivables and Other current financial assets" to the Consolidated Financial Statements at 31 December 2025, paragraph "Receivables from financing activities", and Note 30 "Information on financial risks" to the Consolidated Financial Statements at 31 December 2025, paragraph "Credit risk".

Transfers of financial receivables

The Group transfers a number of its financial receivables to securitisation programs or factoring transactions.

At 31 March 2026, the carrying amounts of transferred financial assets not derecognised (constituted entirely of Receivables from financing activities) and the related liability amounted to €2,564 million (€3,019 million at 31 December 2025). At 31 March 2026 and 31 December 2025, the carrying amount of assets and of the related liabilities were equal to their respective fair values.

For further information on Iveco Group's securitisation programs and factoring transactions, see Note 17 "Current receivables and Other current financial assets" to the Consolidated Financial Statements at 31 December 2025, paragraph "Transfer of financial receivables".

Iveco Group has discounted receivables and bills without recourse having due dates beyond 31 March 2026 amounting to €244 million (€280 million at 31 December 2025, with due dates beyond that date), which refer to trade receivables.

17. Derivative assets and Derivative liabilities

These items consist of derivative financial instruments measured at fair value at the balance sheet date.

Iveco Group utilises derivative instruments to mitigate its exposure to interest rate (swaps) and foreign currency exposures (mainly foreign exchange forward contracts and swaps). Derivatives used as hedges are effective at reducing the risk associated with the exposure being hedged and are designated as a hedge at the inception of the derivative contract. Iveco Group does not hold or enter into derivative or other financial instruments for speculative purposes. The credit and market risk related to derivatives is reduced through diversification among various counterparties.

The following table summarises the gross impact of changes in the fair value of derivatives recognised in Other comprehensive income and in the income statement during the three months ended 31 March 2026 and 2025:

	Three months ended 31 March	
(€ million)	**2026**	**2025**

The fair values of Iveco Group's derivatives as of 31 March 2026 and 31 December 2025 in the Condensed Consolidated Statement of Financial Position are recorded as follows:

	At 31 March 2026		At 31 December 2025	
(€ million)	**Positive fair value**	**Negative fair value**	**Positive fair value**	**Negative fair value**

Total Derivatives not designated as hedging instruments	**1**	**(5)**	**12**	**(18)**
Derivative assets/(liabilities)	**19**	**(35)**	**14**	**(21)**

Derivatives not designated as hedging instruments consist mainly of derivatives (mostly currency-based derivatives) acquired to hedge receivables and payables subject to currency risk and/or interest rate risk which are not formally designated as hedges at Group level.

The total notional amount of foreign exchange derivatives was €3.1 billion at 31 March 2026 and 31 December 2025; the total notional amount of interest rate derivatives was €0.7 billion at 31 March 2026 and 31 December 2025. Ineffectiveness amounts for both interest rate and foreign exchange derivatives were insignificant for both periods presented.

With regard to hedge accounting, Iveco Group continues to monitor significant developments in order to assess the potential future impacts of current macroeconomic and geopolitical issues, energy and material price variability, on the hedging relationships in place and to update its estimates concerning whether forecasted transactions can still be considered highly likely to occur.

18. Cash and cash equivalents

Cash and cash equivalents include cash at bank and other easily marketable securities that are readily convertible into cash and are subject to an insignificant risk of changes in value.

At 31 March 2026, this item included €69 million (€81 million at 31 December 2025) of restricted cash which mainly consists of Central Bank deposits established for regulatory purposes by a subsidiary with a banking license.

At the same date, this item also included €452 million (€370 million at 31 December 2025) of money market securities and other cash equivalents.

19. Assets and liabilities held for sale

(1) At 31 December 2025, Other also included €164 million of net financial payables to Discontinued Operations.

Total Debt was €5,135 million at 31 March 2026, a decrease of €926 million compared to 31 December 2025, primarily as a result of lower debt of Financial Services due to lower portfolio.

The item Asset-backed financing represents the financing received through both asset-backed securitisations and factoring transactions which do not meet IFRS 9 derecognition requirements, recognised as assets in the statement of financial position.

Referring to Lease liabilities, during the three months ended 31 March 2026, €17 million for the principal portion and €2 million for interest expenses, respectively, were paid (€17 million and €2 million, respectively, paid during the three months ended 31 March 2025).

The following table sets out a maturity analysis of Lease liabilities at 31 March 2026 and 31 December 2025:

With the purpose of further diversifying its funding structure, Iveco Group has established a €2 billion EMTN Programme to access the capital markets through the issuance of bonds. Furthermore, in Europe, IC Financial Services S.A. issued commercial paper which had an amount of €62 million outstanding at 31 March 2026 (€59 million at 31 December 2025).

Other liabilities also included accrued expenses and deferred income of €205 million (€190 million at 31 December 2025).

25. Commitments and contingencies

As a global company with a diverse business portfolio, Iveco Group in the ordinary course of business is exposed to numerous legal risks, including, without limitation, dealers and suppliers litigation, intellectual property rights disputes, product warranty and defective product claims, product performance liability, asbestos, personal injury, regulatory and contractual issues, competition law, anti-corruption and other investigations, environmental claims. All significant matters are described below.

The outcome of any current or future proceedings, claims, or investigations cannot be predicted with certainty. Adverse decisions in some of these proceedings, claims or investigations could require Iveco Group to pay substantial damages or fines or undertake service actions, recall campaigns or other costly actions. It is therefore possible that legal judgments could give rise to expenses that are not covered, or not fully covered, by insurers' compensation payments and could affect Iveco Group's financial position and results.

When it is probable that an outflow of resources embodying economic benefits will be required to settle obligations and this amount can be reliably estimated, Iveco Group recognises specific provisions for this purpose.

Although the ultimate outcome of legal matters pending against Iveco Group cannot be predicted, Iveco Group believes the reasonable possible range of losses for these unresolved legal matters in addition to the amounts accrued would not have a material effect on its Interim Condensed Consolidated Financial Statements, except for the following cases.

Other litigation and investigation

Follow on Damages Claims: in 2011 Iveco S.p.A. and Iveco Magirus AG (together "Iveco"), which, following the Demerger, are now part of Iveco Group N.V., and their competitors in the European Union were subject to an investigation by the European Commission (the "Commission") into certain business practices in the European Union in the period 1997-2011, in relation to Medium & Heavy trucks. On 19 July 2016, the Commission announced a settlement with CNH Industrial ("the Decision") including a settlement with Iveco. In particular, Iveco received a reduction in its fine for cooperating with the European Commission throughout the investigation, and received a fine of €494.6 million. Similar decisions were taken, by the Commission, with reference to the other competitors. Following the Decision, Iveco S.p.A. and Iveco Magirus AG have been named as defendants in many proceedings across Europe and Israel. These damage claims could result in substantial liabilities for the

Group as well as incurring in significant defense costs, which may have a material adverse effect on its operations and financial condition. The extent and outcome of these claims cannot be reliably predicted at this time and, therefore, the Group did not recognise any specific provision for these claims. In the three months ended 31 March 2026 and 2025, Iveco Group recognised a cost of €51 million and €59 million, respectively, related to certain claims for which it was possible to make a reliable estimate. This current position will be reassessed on a regular basis and updated as necessary, based on cases' evolution. In accordance with IAS 37 – *Provisions, Contingent Liabilities and Contingent Assets* (paragraph 92), no further information is disclosed so as not to prejudice the Group's position.

FPT Emissions Claims: We are defending individual civil claims alleging emissions' non-compliance in Germany and Austria. We cannot predict at this time the extent and outcome of these individual claims and therefore we did not recognise any specific provision in such relation.

Iveco Poland Antitrust Case: in August 2024, the President of the Office of Competition and Consumer Protection of Poland ("UOKIK") issued a decision regarding alleged violations of competition law by Iveco Poland Sp. z o.o. ("IPL"), a subsidiary of Iveco Group N.V., and its distributors in the local truck market, envisaging a fine of PLN 155 million (approximately €36 million as of 31 March 2026). The UOKIK decision was served on IPL in September 2024. Iveco Group disagrees with the allegations and findings presented by the UOKIK and intends to defend its case in every possible instance and the decision of UOKIK is not yet final or binding. As a consequence, in October 2024, IPL has appealed the UOKIK decision before the Polish First Instance court (the "Court") and, as of May 2026, the proceedings are pending. Only a final judgment of the Court will determine whether a breach of competition law took place and the amount of the fine, if any, that should be paid. In light of the above, Iveco Group did not recognise any specific provision in relation to this case.

Commitments and guarantees

Iveco Group provided guarantees on the debt or commitments of third parties and performance guarantees, mainly in the interest of an associate providing financing solutions to customers, for the total amount of €203 million at 31 March 2026. At 31 December 2025, guarantees provided amounted to €563 million, also including €326 million on commitments of a joint venture of Defence business .

26. Segment reporting

The segment information disclosed in these Interim Condensed Consolidated Financial Statements reflects the identifiable reporting segments of the Company and the financial information that the Chief Operating Decision Maker (CODM) reviews to assess performance and make decisions about resource allocation. The segments are organised based on products and services provided by Iveco Group.

Iveco Group has the following operating segments:

- ***Truck*** designs, manufactures and distributes a full range of light, medium, and heavy vehicles for the transportation and distribution of goods under the IVECO brand;
- ***Bus*** designs, manufactures and distributes minibuses, city-buses, intercity buses and coaches under the IVECO BUS and HEULIEZ brands;

Financial Services provides and administers retail financing to customers for the purchase or lease of new and used vehicles sold by brand dealers and distributors of the Group or directly by subsidiaries of the Group. In addition, Financial Services provides wholesale financing to brand dealers and distributors of the Group. Wholesale financing consists primarily of floor plan financing and allows the dealers to purchase and maintain a representative inventory of products. Financial Services also provides discounting of non-dealer trade receivables from legal entities of the Group. Additionally, Financial Services grants support to CNH Industrial Group (CNH), by providing financial services for its European brands, dealers and customers under a vendor and service agreement, receiving a fee for the services rendered.

Furthermore, on 18 March 2026, Iveco Group transferred the full ownership of its Defence business (which manufactures and distributes vehicles for civil defense and civil protection under the IDV brand, and vocational heavy-duty trucks for heavy haulage and off-road missions under the ASTRA brand) to Leonardo S.p.A., as per the terms of the agreement announced on 30 July 2025. In accordance with IFRS 5 - *Non-current Assets Held for Sale and Discontinued Operations*, as the sale became highly probable in July 2025, at that time the Defence business met the criteria to be classified as a disposal group held for sale; it also met the criteria to be classified as Discontinued Operations. The contribution of Defence business to Iveco Group result and cash flows for the first quarter of 2026 is presented as Discontinued Operations in this Interim Report, as described in paragraph above "Defence Business Sale".

The activities carried out by the Truck, Bus and Powertrain Business Units, as well as by the holding company Iveco Group N.V. are collectively referred to as "Industrial Activities".

Revenues for each reported segment are those directly generated by or attributable to the segment as a result of its business activities and include revenues from transactions with third parties as well as those deriving from transactions with other segments, recognised at normal market prices. Segment expenses represent expenses deriving from each segment's business activities both with third parties and other operating segments or which may otherwise be directly attributable to it. Expenses deriving from business activities with other segments are recognised at normal market prices.

The CODM assesses the segment performance and makes decisions about resource allocation based upon Adjusted EBIT, which is deemed to more fully reflect Industrial Activities and Financial Services segments' profitability. Adjusted EBIT is defined as EBIT before restructuring costs and non-recurring items. In particular, non-recurring items are specifically disclosed items that management considers rare or discrete events that

are infrequent in nature and not reflective of on-going operational activities. Management believes Adjusted EBIT is useful because it excludes items that management believes are not indicative of Iveco Group's underlying operating performance between periods. Management also believes that Adjusted EBIT is useful for investors and analysts to better understand how the CODM assesses Iveco Group's underlying operating performance on a consistent basis. Accordingly, Iveco Group believes that Adjusted EBIT provides useful information to third party stakeholders in understanding and evaluating Group's operations.

The following table summarises Adjusted EBIT of Continuing Operations by reportable segment:

27. Fair value measurement

Fair value measurements are categorised within the fair value hierarchy, described as follows, based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the entire measurement:

- Level 1 — Quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 — Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly;
- Level 3 — Unobservable inputs for the asset or liability.

This hierarchy requires the use of observable market data when available.

Assets and liabilities measured at fair value on a recurring basis

The following table presents, for each of the fair value hierarchy levels, the assets and liabilities that are measured at fair value on a recurring basis at 31 March 2026 and 31 December 2025:

		At 31 March 2026				At 31 December 2025			
(€ million)	Note	Level 1	Level 2	Level 3	Total	Level 1	Level 2	Level 3	Total
Equity investments measured at fair value through other comprehensive income	(13)	—	—	9	**9**	—	—	9	**9**
Other investments	(13)	—	—	3	**3**	—	—	3	**3**
Derivative assets	(17)	—	19	—	**19**	—	14	—	**14**
Total Assets		**—**	**19**	**12**	**31**	**—**	**14**	**12**	**26**

Total Liabilities		**—**	**35**	**—**	**35**	**—**	**21**	**—**	**21**

The fair value of equity investments categorised within Level 1 is determined by reference to their quoted market price at the reporting date. A market is regarded as active if quoted prices are readily and regularly available, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

For a description of the valuation techniques used to determine the fair value of derivative financial instruments, categorised within Level 2, see Note 18 "Derivative assets and Derivative liabilities" to the Consolidated Financial Statements at 31 December 2025.

Instruments included in Level 3 comprised primarily of equity investments for which there is no quoted market price in an active market and there is insufficient financial information in order to determine fair value, and cost is used as an estimate of fair value.

Debt

The fair value of Asset-backed financing, Borrowings from banks, Payable represented by securities and Other debt are included in the Level 2 and has been estimated based on discounted cash flows analysis using the current market interest rates at period-end adjusted for the Group non-performance risk over the remaining term of the financial liability.

The fair value of Lease liabilities classified within Level 3 of the fair value hierarchy has been estimated using discounted cash flow models that require significant adjustments using unobservable inputs.

Other financial assets and liabilities

The carrying amount of Cash at banks, Restricted cash, Other cash equivalents, Trade receivables, Other current receivables and financial assets, Trade payables and Other liabilities included in the Condensed Consolidated Statement of Financial Position approximates their fair value, due to the short maturity of these items.
